CLIVAR & Carbon Hydrographic Data Office

Poster ID: B1124
Abstract ID: 12321

Online data repository where you can give and get quality hydrographic data and cruise metadata.

Easy to contribute.

Submit files directly to the site.

No jumping through hoops.

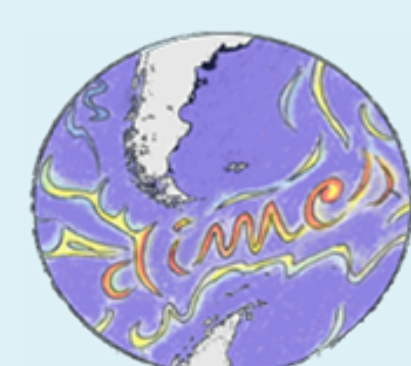

Quality data. *Fast.*

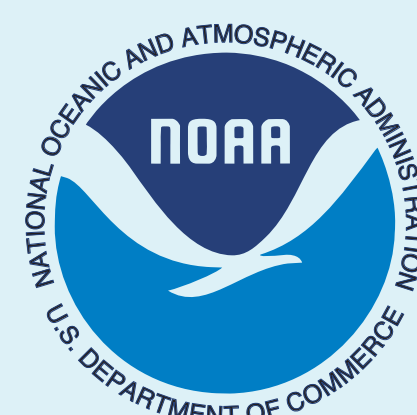

Find data with keyword search, advanced search, geographic region search, or browse lists.

Working together.

Searching @ CCHDO

USHydro GO-SHIP

Easy geographic searches.

Draw on a map

Find cruises by drawing a box, circle or polygon, or search by latitude and longitude.

All CCHDO holdings are archived at [U.S. -NODC](http://www.nodc.noaa.gov).

Submit data through a [single-page form](#) where you can [add multiple files simultaneously](#). Only enter metadata once.

Submitted public files are put online “as received” and are [immediately available](#) for dissemination online.

CCHDO works closely with CDIAC to keep [U.S. Repeat Hydrography](#) cruises updated.

CCHDO is proud to be the acting data center for the [GO-SHIP](#) international program.
